TREMBLANT Series - Bike Rack #SVTR-10

Rév.: December 18th, 2014

Features:

- The bike rack is made of *ULTRAPLAST™* recycled plastic and the support is made of steel coated with our "InfiniGuard Professional" anticorrosion system or galvanized.
- Expandable modular design.
- The rack has enough room per bike to lock both the rear wheel and a quick release front wheel together.
- Black molded *ULTRAPLAST™* recycled plastic support base with slip resistant tire grip.
- Tubular steel 1" (25mm).
- Add on modular design allowing infinite bike parking capacity.
- Stainless steel standard anchor for concrete.
- Factory assembled.

Standard installation details:

- Surface mounted.

Option:

- In-ground permanent anti-theft anchor.

Weight: 245.48 Lb.
